

## **Info Sheet**

# **Continuous Crystallization**

### **Features:**

- Stirred tanks in series (MSMPRs)
- Continuous dissolved product feed
- Heated feed option available
- Continuous antisolvent feed(s)
- Push/Pull slurry transfer system for intermittent slurry transfer between MSMPRs
- Slurry transfer zone system for intermittent slurry transfer out of the final MSMPR
- Baffle cages to improve solids suspension
- Proven techniques to prevent fouling
- Automation adaptable for 1 – 4 MSMPRs
